

Media Release and ASX announcement - Melbourne, 3 October 2007.

**CPT Global Limited (ASX: CGO)**  
**CPT Global Limited (CGO) announces successful tender with Queensland Health**  
**and intention to establish a Brisbane office.**

CPT Global Limited - A global specialist in the provision of independent IT professional services, is pleased to announce its success as the winning tenderer to provide Capacity Management Services to Queensland Health over the next 3 years. Capacity Management is one of the core competencies on which CPT Global was founded and is an area where clients are increasingly seeking external expertise.

Managing Director, Gerry Tuddenham said "CPT Global is delighted to have been selected as a key partner in assisting QLD Health to successfully implement an enterprise-wide Capacity Management capability for the organisation. As one of the few client-side providers of IT consulting services in Australia, CPT Global will be able to provide independent advice based on our experiences in Australia and Overseas, in the establishment of this function."

CPT Global is also pleased to announce its intention to establish an office in Brisbane to support Queensland Health and to cater for the increasing need for our services in the Queensland marketplace.

Managing Director, Gerry Tuddenham said "CPT Global has supported Queensland remotely over the past 10 years and we are now committed on growing our core competencies of Management of IT, Capacity Planning, Performance Tuning and Testing locally in this region".

**About CPT Global**

CPT Global Limited (CPT) (ASX:CGO) provides independent management consulting and technical services that are geared to be an extension of the IT organisations capability when specialist skills are required. CPT's service goal is to deliver value to all clients by assisting the IT organisation in establishing effective IT operational governance arrangements as well as maximizing and measuring the effectiveness of its service delivery. With over 220 IT consultants having worked in 17 different countries our core capabilities include Performance Tuning, Capacity Planning and Cost Reduction Services Management.
